Geared-up Total Supply Chain Solutions

KERRY
LOGISTICS

Driving Business Forward

Asia Specialist • China Focus • Global Network

Kerry Logistics is the premier logistics service provider with a solid presence in Asia and a strong focus on China. We are fully geared up to provide the global automotive sectors with integrated supply chain solutions from sourcing and supply of raw materials to manufacturing plants, and outbound automobiles to end customers, to aftermarket logistics. With our global expertise and the largest network in Greater China, we deliver your automobiles faster and more cost efficiently than anyone else.

Swift Response

Whatever your automotive logistics objectives, we provide timely response and action. Through a process-driven approach and pre- and post-manufacturing solutions, we ensure quick adaptation to changes in product mix and volume.

Top Safety and Quality Standard

At Kerry Logistics, delivering peace of mind to clients is our top priority. Our pioneering proprietary IT platform KerrierVISION provides seamless integration and guarantees full transparency and control throughout the supply chain. Through best practice and continuous improvement, your automobiles and related parts are delivered under the highest safety and quality standard.

Customised Supply Chain Solutions

Our global expertise and close collaboration with automotive manufacturers and other suppliers means we can help you to respond more quickly to changes in demand. With our customised supply chain solutions we can help you to be more flexible and versatile in your business.

- Production scheduling
- Procurement process management
- Upstream production line logistics
- Buyers' consolidation
- Cross-docking
- Vendor management
- Product quality control management
- Marketing promotion logistics

VMI

Our inbound logistics and VMI solutions ensure a continuous supply of raw materials to support your production line all year round. By managing your suppliers more effectively, you can focus on your R&D and business development for increased capital and an improved balance sheet.

- Vendor hub operations and multi-vendor inventory management
- Asia-Pacific, regional and national distribution centres
- Catalogue management
- Product packaging equipment management
- Treatment Planning System management
- Schedule pulled production / KANBAN pulled production
- JIT delivery
- 'Milk Run' transportation across the country

Sub-Assembly and Kitting

Our solutions are designed to enable you to reduce your depreciation risks by pushing back the final assembly of vehicles, packaging preparation and related marketing materials to a point that is closer to your end user.

- BOM assembling
- SN management
- Picking and sorting
- Kitting and sequencing
- Re-packing and labelling
- Secondary packaging
- Asset/container management
- Testing parts management

Spare and Service Parts Logistics

We offer sophisticated logistics management for spare and service parts to help you improve parts availability and order accuracy along the supply chain. Benefit from an optimised inventory level and enjoy a shortened cycle time for your vehicles.

- Service and spare parts kitting
- Quality inspection and maintenance
- Critical parts replacement
- Inventory planning, forecasting and analysis
- Domestic and regional inbound/outbound delivery
- Regional allocation
- Financial logistics

Freight and Distribution Management

You can rely on us to distribute all types of cars as well as light and heavy commercial vehicles and motorbikes to dealer networks around the world in factory condition. In Asia, our Kerry Asia Road Transport (KART) network offers reliable and effective long-haul trucking services for a faster, cheaper and just-in-time delivery solution across ASEAN countries.

- Multi-modal freight forwarding
- Pre-declaration and customs declaration
- Account settlement
- Web-based shipment track and trace
- Purchase and shipment order visibility down to SKU level
- Web-based real-time action reports providing key milestones, exceptions and document details
- Import certificate and licence application
- Container loading, lashing and haulage from ports to hubs
- Nationwide distribution through FTL, LTL and express door-to-door delivery

After-Sales Logistics

Our dedicated team is always here for you. With our sector-based approach and innovative logistics solutions, we ensure customers receive the highest standard of services and aftermarket support.

- 4S stores distribution
- Reverse logistics and return management for spare and service parts
- Regional allocation of spare and service parts
- Product recall
- Call centre support

Value-Added Services

We add value to your automobiles in the last mile of the supply chain before they reach the sales outlet, increasing the competitiveness of your products.

- Functional testing/RMA functional testing
- Vehicle cleaning, tyre checking and pressure refilling
- Battery recharging
- Packaging and repackaging
- Car/engine labelling
- Quality and quantity checking
- CKD or SKD operations
- Car racing event and car show/exhibition support
- Empties return and management
